

Abstract Impact/Interest and Quality	Very High Impact/Interest, Excellent Abstract Quality	High Impact/Interest, Strong Abstract Quality	Medium Impact/Interest, High Abstract Quality	Medium to Low Impact/Interest, Moderate Abstract Quality	Low Impact/Interest, Poor Abstract Quality, Incomplete Submission	Advertisement Abstract
Meaning	Plenary	Platform	Reviewers' Choice Poster/Lightning Talk (best of the posters)	Poster	Decline	Decline
Scoring	1	2-3	4	5-6	7-8	9
Expected %	0.5%	8%	10%	80%	1%	0.5%
Topic	Hypothesis is compelling, and methods are sound. Results at time of abstract submission are unpublished, extremely mature, represent a top advance in the field, and are of broad interest.	Hypothesis is compelling, and methods are sound. Results at time of abstract submission are unpublished and mature, represent a significant advance in the field, and are of broad interest.	Hypothesis is interesting, and methods are sound. Results are somewhat mature, represent an advance in the field, but are of narrower interest. Work is unpublished.	Hypothesis is somewhat interesting, methods are mostly sound. Results are published or if unpublished they are immature, less significant or incremental progress in field, are of narrow interest. (Note: pre-prints are not considered previously published.)	Methods are questionable (ethics, flawed, not understandable). Results are immature, missing, and/or opinionated with no scientific basis. Not related to human genetics or genomics.	Abstract reads as an advertisement for a new technology, software or company.
Organization and content	Abstract is exceptionally well-written and organized with clearly outlined hypothesis, methods, and results.	Abstract is well-written and organized with clearly outlined hypothesis, methods, and results.	Abstract is coherent and organized with identifiable hypothesis, methods, and results.	Abstract is coherent and somewhat organized with identifiable hypothesis, methods, and results.	Abstract is difficult to understand and missing hypothesis, methods, and/or results.	Abstract is clearly advertising services, rather than experimental results.
Overall	Exceptional Abstract (Slam Dunk)	Outstanding Abstract	Abstract with Few Weaknesses	Abstract with Some Weaknesses or Already Published Data	Poor Abstract	Advertisement Abstract

How to Indicate a Conflict of Interest

Select "Abstain from Grading" to indicate Conflict of Interest between reviewer and abstract and recuse yourself from scoring the abstract. Explain the nature of the conflict in the comment box of the Grading step. Be sure to review the [Conflict of Interest Policy](#).

All abstracts marked with Conflict of Interest will be scored by another designee or the Program Committee Chair.
